

Gerald Mackey  
Artist Statement

As an artist, I enjoy working in a variety of visual media. I have degrees in art from the University of Minnesota and Michigan State University and have shown work individually, in-group shows, and in competitions throughout the state.

Most of this collection shown was completed during the corona virus sequestering, a tumultuous time that engulfed our country. The last intaglio print is of my morning visitors. These feathered friends visit each day and the image brings a symbolic peace message.
